OUR PROGRAM

Making a decision about where to receive care can be a difficult decision to reach. Inpatient

Rehabilitation is part of a strong continuum of care starting with acute care and ending with outpatient therapy and Physical Medicine and Rehabilitation follow up. Rest assured if you choose Cone Health Rehabilitation Center we will treat you and your family like our own. We want to exceed your expectations and will plan your care around meeting your goals. Below are a few highlights about our program:

- The only Rehabilitation Center in North Carolina that is designated as an Alliance member with the Academy of Certified Brain Injury Specialists.
- Board Certified Physical Medicine and Rehabilitation physicians.
- All private rooms.
- Valet services.

ACCOMMODATIONS

We have flexible visiting hours and encourage family members to participate in your care. All rooms are private, and we have specially equipped beds to help reduce falls. We perform hourly rounding to ensure your safety and comfort and provide sleeper recliners and cots so your family member can stay with you. If you would like to learn more about our program, call 336-832-8153 to speak with one of our admissions coordinators.

Satisfaction With Program

At discharge, 95 percent of people served rate service as very good or good.¹ At three-month follow-up, 95.8 percent report they were very satisfied or satisfied with the program.²

Characteristics of Patients Served

During 2018, the Cone Health Rehabilitation Center cared for 784 patients. Our patients had an average age of 62. Patients received an average of 2.46 hours of therapy per day. Patients spent an average of 13.84 days in the Cone Health Rehabilitation Center.

Gaining Independence

Regaining independence is a primary focus in rehab, and 622 (87 percent) of patients completing the program achieved their individual goals.
