

CONE HEALTH REHABILITATION CENTER Stroke Program

Report Card 2025

OUR PROGRAM

Making a decision about where to receive care can be a difficult decision to reach. Inpatient Rehabilitation is part of a strong continuum of care starting with acute care and ending with therapy and Physical Medicine and Rehabilitation follow up. Rest assured if you choose Cone Health Rehabilitation Center we will treat you and your family like our own. We want to exceed your expectations and will plan your care around meeting your goals. Below are a few highlights about our program:

- CARF accredited stroke specialty program.
- Board Certified Physical Medicine and Rehabilitation physicians.
- Certified Rehab Registered Nurses
- Therapists with Diagnostic Specific Specialty Certification

Satisfaction With Program

At discharge, people with stroke rate our care as 4.78 stars.¹

Characteristics of Patients Served

Age range is 25 – 97.

During 2025, the Cone Health Rehabilitation Center cared for 372 stroke survivors. Our patients had an average age of 68. Patients received an average of 3.34 hours of therapy per day. Patients spent an average of 13.8 days in the Cone Health Rehabilitation Center.

Reaching Individual Goals

Reaching your goals is our primary focus in rehab. 90 percent of the patients who completed our program successfully achieved the goals set with their care team.

ACCOMMODATIONS

We have flexible visiting hours and encourage family members to participate in your care. We have specially equipped beds to help reduce falls. We perform hourly rounding to ensure your safety and comfort and provide sleeper recliners and cots so your family member can stay with you.

If you would like to learn more about our program, call (336) 832-8153 to speak with one of our admissions coordinators.
