Physician-led collaboration to improve health care

PGY2 Ambulatory Care
Ambulatory Care Residency

North Carolina

GREENSBORO, NC, is a growing community of 260,000+ with a referral area covering more than 500,000, located in the heart of North Carolina. Greensboro offers a four-season climate, great cultural and sporting events, and is an easy driving distance from the mountains and the beach.
Who Is THN Care Management?

THN Care Management is a multidisciplinary team including pharmacists, nurse care managers, licensed clinical social workers, a geriatric nurse practitioner, and care management assistants. The team works together to provide ongoing care coordination with providers; avoid duplication of services and medications; and break down silos of technology (electronic medical records or lack thereof) that can impact barriers of patient care, collaboration with home health agencies, facilities, community agencies and insurance payer case managers.

What We Do:
• High-risk care management:
  o Chronic complex care management
  o Disease management
• Readmission prevention/care transition
• Pharmacy assistance and services:
  o Medication review and reconciliation
  o Drug utilization review and identification of gaps in care
  o Monitoring of quality metrics associated with various contracts
  o Medication assistance program
  o Drug information
  o Patient education

Our Success:
• THN was ranked 30th nationally out of 220 Accountable Care Organizations (ACOs) based on 33 quality measures within the Medicare Shared Savings Program, which is designed to incentivize providers to control costs while improving the quality of care.
• THN generated more than $25 million in savings for caring for 35,000 Medicare patients in the past two years.
Triad HealthCare Network
PGY2 Ambulatory Care Residency

Triad HealthCare Network (THN) is a provider-led collaboration between community physicians and Cone Health organized to improve health care in Greensboro and the greater Piedmont Triad area. THN represents a new model of health care delivery known as Clinical Integration, which is based on a strategy to better align physicians, hospitals and payers in order to provide better access to care and better clinical quality, and control costs. THN’s primary goal is to create greater collaboration and trust among physicians, hospitals, patients and payers to better manage the health of the community and lower health care costs by coordinating quality improvement efforts using evidence-based quality measures.

Opportunities:
- Home visits to assist in medication therapy optimization
- Medication therapy management
- Management of diabetes, hypertension, anticoagulation, COPD, and antiarrhythmic therapies
- Monitoring of fulfilled and unfulfilled quality metrics
- Become a part of a successful ACO care management team

Clinical Experiences:
- THN Care Management
- Cone Health Medical Group HeartCare Clinic
- Cone Health Family Medicine Center
- Medication Management Clinic
- Cone Health Heart Failure Clinic
- Cone Health Infectious Disease Clinic
- THN Link to Wellness

Requirements:
- PharmD Degree
- PGY1 Residency
- Eligibility for NC and VA Licensure

Upon completion of this residency, the resident will be prepared for a variety of job opportunities in ambulatory care, including a faculty position, clinical position or accountable care organization position.
OUR INTENT
We are the leader in delivering integrated, innovative health care.

OUR VALUES
