

Transforming the Future of Health Care: **Cone Health + Sentara**

TO: Cone Health Patients and Health Plan Members

SUBJECT: Cone Health + Sentara: Transforming the Future of Health Care

As you probably have heard, Cone Health and Sentara Healthcare have announced plans to merge. Combining our organizations will make health care better, more convenient and more affordable for you for years to come. In addition, you will have more choice in how you receive health care and more options for health insurance.

What this merger means for you:

- Nothing is changing in your relationship with Cone Health, Triad HealthCare Network or the HealthTeam Advantage insurance plan.
- You can continue to see your same doctor in the same location and continue to use your current insurance plan and benefits.
- You can expect the same high-quality care from our top physicians, caregivers and staff – in our current hospitals and many other facilities. In addition, you will see investments in facilities, programs and technologies that will make staying healthy easier and more affordable.
- We will expand our focus even further on addressing health disparities, improving wellness and building thriving, healthy communities.

We invite you to learn more. Visit www.conehealth.com/future for additional information. We will provide updates as we chart our path forward so that we can ensure a healthier future for all of us.

Thank you for your support as we lead the transformation of health care.

Thank you,
Terry Akin, CEO, Cone Health
